Abstract
**The Provisions of Upgrading the Public Employee, its Affect on
the System of Civil Service and Supreme Court of Justice of
Jordan: Comparative study**

Ahmed Hmod Al-Ma'ay'ah

Mu'tah University, 2009

This study examines from a comparative perspective the "Promotion" of a public servant in the light of the Jordanian Civil Service System and the judiciary if the High Court of Justice. Examining this matter is of a great importance particularly because of the absence of specialized studies in Jordan in this regard. The study considers respectively the following issues: the meaning and implications of "Promotion" in the field of public job, systems of promotion and the Jordanian law approach in this regard and, finally, the consequences and guarantees of promotion. A group of results and recommendations are suggested at the last part of this study.
